

Sweet brother

Robin Djusberg

Intro: G D/F# Em C D/F# G

Remember the days they told us we'd part ways?
 It was written in the stars they said, written in the stars
 Remember when you said never be afraid?
 Listen to yourself you said, always trust yourself

So that whatever they plan or say you'll make sure you find your own way
 And then I will follow you there, to make sure that you're OK

Count on me, count on me. Oh sweet brother can't you see?
 the stars are blind and so are we
 Count on me, count on me. For all the dreams we had and shared,
 there's that fire that still burns for us
 Oh sweet brother you can count, count on me

Instrumental: Em C G D/F#, Em C D Em

They said we're getting older, too old to dream
 It's decided for us all they said, written in the stars
 But whatever they plan or say, I'm sure we'll be OK

Count on me, count on me. Oh sweet brother can't you see?
 the night is young and so are we
 Count on me, count on me. For all the dreams we had and shared,
 Let's never let that fire burn out
 Oh sweet brother you can count, count on me, count on me

Instrumental
